## **DETAILED ACTION**

### ***Priority***

Receipt is acknowledged of papers submitted by the International Bureau under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Examiner's Statement of Reasons for Allowance***

#### **The following is an examiner's statement of reasons for allowance:**

The prior art of record fails to disclose or reasonably suggest a relief structure alignment layer having a surface memory alignment layer arranged to impart a preferred liquid crystal director alignment to a liquid crystal material in contact with the surface memory alignment layer in addition to the accompanying features of the independent. The prior art of record also fails to disclose a method for configuring a liquid crystal material including the method step of converting the liquid crystal material from the isotropic phase to an oriented liquid crystal phase in the presence of an applied field so that it imparts the preferred alignment of the liquid crystal director within the cell.

A close prior art of record is U.S. Patent 6,287,649 to Fukushima et al. Fukushima et al teaches a relief structure alignment layer including at least one indentation having an internal surface extending from the relief structure. But Fukushima et al fails to specifically teach a surface alignment layer and therefore also fails to teach the alignment of the liquid crystal material to the surface alignment layer.

Another close prior art of record is U.S. Patent Application Publication 2004/0135763 to Kaneko et al. Kaneko et al teaches an electrophoretic display including at least one indentation on the reflector portion of the display. But Kaneko et al fails to specifically teach indentations

on the internal surface of the relief structure surface and for the insulating solvent to be a liquid crystal material.

**Therefore, claims 1-23 are allowed.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Prior Art***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. None of the documents cited by the Examiner discloses or reasonably suggests the allowable subject matter discussed above.

The documents submitted by applicant in the Information Disclosure Statement have been considered and made of record. Note attached copy of form PTO-1449. None of the references submitted by Applicant discloses or reasonably suggest the allowable subject matter discussed above.
